What is Slow learning?

Slow Learning is a 2-year European project, aiming in training IT educators to acquire the competences and skills they need, in order to be able to train effectively elders in new technologies, by using innovative methodologies and tools.

Main Aims

- Better understanding of seniors' expectations & needs in learning environments, focusing on IT training
- Improved knowledge & use of pedagogical tools, in educating seniors in new technologies
- Create the basic theoretical foundations for the implementation of education of IT to older adults
- Get to know seniors as a diverse group of adult learners, for whom education is being prepared according to their needs and for them
- Exchange of good practices among partnership

Target Groups

- Adult educators
- Professionals in IT
- IT teachers / trainers / mentors
- Seniors
